Thank You Carin Cohen of Critter Visits

A 1 mile section from the west end of Veteran's Memorial Drive (off of Medway Road) to Mt. Pleasant Street (known as "the missing link") now under development will connect the two existing segments thereby completing the 6.7 mile border to border Milford Upper Charles Trail. It is anticipated that the new section will be open in the fall of 2014. *We are very happy that Carin Cohen of Critter Visits has once again stepped forward with the generous donation of a DogiPot clean-up station and a supply of bags to be used on the new section.* Keeping pet waste disposed of properly is a major project on the Trail and the Friends of the Trail spends thousands of dollars every year keeping the stations supplied with bags. Carin is the owner of Critter Visits and has been caring for pets of all kinds since 2002. More information about this company can be found at
